

1001

Wheel Dumper

The all-rounder

The 1001 is the perfect solution for confined spaces. The extremely compact machine is available with a 990 mm width and can fit through narrow passages. Thanks to the typical articulated pendulum joint and the low-maintenance twin-lock 4-wheel drive system, traction remains guaranteed on every terrain. The fold-down roll over protection system provides a high level of safety and still ensures problem-free use and transport in narrow spaces. A wide control station and the intuitive operating concept also provide a high level of comfort on the machine. Easily reachable service accesses top off the overall package.

Highlights

- Twin-lock 4-wheel drive system
- Articulated pendulum joint
- Small dimensions
- Optimum weight distribution
- Smooth ride characteristics
